The Wool Industry.

A few days since the following appeared in the press dispatches:

Washington, Aug. 23.—James W. Tallent, of St. Louis, and T. J. Breen, of Philadelphia, had an interview with Secretary Carlisle today regarding the construction to be placed on the new tariff bill as to goods in bond. The particular question was whether wool now in bond could be withdrawn without payment of duty when the new tariff act placing it on the free list became a law. Mr. Carlisle replied that all wool now in bond, in order to avoid the payment of duty, would have to be exported and again imported. On July 31 there were 63,729,321 pounds of wool in bond, valued at \$7,319,672.

And now comes this from THE CITIZEN: Washington, Aug. 27.—Secretary Carlisle has decided and will instruct customs collectors that goods placed in bonded warehouses under the McKinley law, made free duty, under the new tariff act, are entitled to free entry and need not be exported and re-imported in order to get the benefit of the new act. This is of special interest to the wool trade, as a large amount of wool is stored in bonded warehouses.

I assume the last is correct as it is the most unfavorable to our wool industry and it has no right to expect any favor from either house, senate or president. The first dispatch shows that on July 31 there were 63,729,321 pounds of wool in bond, that is considerably more than one-third of our annual domestic consumption, but nearly a month has passed since then and it is not an overestimate to say that 100,000,000 pounds are now ready for delivery. A late dispatch says that the bureau of customs brought a large cargo and that the consignment will make \$60,000 by saving the duty. It is said that the wool in bond on July 31 was worth \$7,319,672 which would be a fraction over eight cents per pound delivered in New York. Now when our wool costs at least three cents per pound for transportation that would leave about five cents per pound for the owner here. I see there is a lively movement in wool in England for the American market.

It would be very strange if there was not feeling that England has been waiting for many years for the passage of just such a bill as this. It can easily be seen now why eastern wool buyers would not pay the prices which prevailed here. Cleveland's election. They knew that these enormous stocks of the foreign product were being piled up here waiting for the time which has come at last, and they would not pay seventeen cents here when they knew they could get it for eight or nine cents at their own doors. If this wool was admitted under the McKinley act the owners would pay eleven cents per pound, which, added to its value—eight cents—would make the selling price nineteen cents, and that was why we received between fifteen and seventeen cents per pound. Now we have to compete with eight cents wool without any protecting duty. How can prices advance under such circumstances?

BAR ASSOCIATION.

A LEGAL COMMITTEE Named to Prepare a Code for Presentation to the Legislature.

The New Mexico Bar association met at the court house in Santa Fe Wednesday night, Hon. J. P. Victory, vice president, in the chair in the absence of President Eitch. The advisability of naming a committee to draft a legal code was the principal business on hand. Addresses favoring such action were made by Gov. Thornton, Hon. W. B. Childers, Judge Warren and ex-Gov. Prince. Messrs E. A. Fiske and John H. Knaebel spoke against it, but on a vote the proposition carried, only Mr. Fiske voting in the negative. Sixteen members of the bar throughout the territory sent in their votes, twelve of them being favorable. The chairman appointed on such committee the following named: L. B. Prince, 1st district; W. B. Childers, 2d district; G. D. Bantz, 3d district; A. A. Jones, 4th district; G. A. Richardson, 5th district.

The association then decided to hold its next called meeting in Santa Fe in January and its next annual session at Albuquerque.

From a Friend of Prince.

If the republicans really wish to elect a delegate this time why do they not name their strongest man? Anyone who thinks that under a democratic administration we are to have a walkover is mistaken. We must find the man who is strongest before the people and can draw the most support from the other side; in other words, who has personal popularity to add to the party vote.

The best way to ascertain about this is by experience. We have had but one candidate in about fifteen years who has been even as strong as the party. That was Judge Prince. When he ran in 1884, although the Rynerson defection took away over 5,000 republican votes, and there was no organization even to circulate tickets in more than a quarter of the counties, yet he gained enough democratic votes to be nearly elected. But for the defection he would have had at least 4,000 majority.

He has always been strong with the native population, whom he has always defended when they were assailed and never failed to treat fairly as judge and governor. He is the foremost representative of the progressive element, which favors improvement and development in all directions, and this makes him strong with the "American" element. The mining community supported him earnestly in 1884, and is even more favorable now that he is the best known champion of bimetalism in the southwest. This latter point is of particular importance in connection with the new voters from Colorado.

All these things point him out as altogether the best candidate; and, besides, we should not overlook the importance of having a delegate with such qualities that he will amount to something when he gets to Washington.

REPUBLICAN.

Albuquerque, August 29.

A Violent Heel. Last night about 9 o'clock A. R. Casella, the second street barber, was on his way home, and when near the residence of W. Y. Walton, corner of Tijeras avenue and Sixth street, he was attacked without warning by a furious Jersey bull, and Cas. says it was the liveliest single-handed fight he ever had—one he will always remember. He says the bull paved the earth and made a lunge at him. He beat off the vicious animal, and thinks that the darkness of the night and his falling in his escape, only prevented him from being torn to pieces. This CITIZEN understands that the bull has scared other people, and the authorities are requested to look into the matter. Bulls should not be allowed to roam the streets at their pleasure.

THEIR WAYS DO PART.

The Farmers-Market crowd got out of the Union (Y) convention, and Lopes and his crowd lowered Walk Out.

A REPUBLICAN TICKET VERY LIKELY.

Las Vegas, Optic. Yesterday afternoon, the great and noisy union (Y) convention made the temporary officers permanent, and then proceeded to business once more.

The majority report was presented and adopted, being signed by Felix Martinez, Eugenio Romero and T. J. Breen, whereupon the minority report, by Miguel Salazar and E. H. Salazar, was presented, as follows:

MINORITY REPORT: The representatives of the inhabitants of the county of San Miguel, in convention assembled, in the plaza of Las Vegas, make the following declaration of acts and principles:

Inasmuch as the people of this county, as well as all over the Territory, have suffered, and are suffering, in their industries, business and all kinds of enterprises:

And, moreover, wishing to remedy the distressing and damaging situation of our fellow citizens, we unite this day, and, protest emphatically against the party that has been the principal cause of the present ruinous crisis in all classes of business in New Mexico.

We condemn the democratic party for its doctrine of free tariff and other equally pernicious, because we consider them detrimental and inimical to the prosperity of the American people and their own.

We denounce the democratic party for having taken the life of our principal industries, wool, lead and silver; we hold them responsible for the disastrous position in the prices of the industrial products and others of this Territory.

Moreover, we accuse that party of having totally ruined the principal industry and dependence of our people, in sheep-raising and its products.

We condemn the democratic party for its egoism and for its principles that are so detrimental to the progress, industries and prosperity of the Territory of New Mexico and its citizens.

To remedy all these evils, from which we are suffering, we earnestly appeal to all our intelligent and patriotic citizens, and pray that their manhood and courage may demand a betterment of the evil condition and of their own and the public interest to unite, and support, with all their strength and intelligence, the efforts of the republican party, whose principles protect the industries, our homes, our persons and our property.

In comparing the condition of our people and their prosperity, under a beneficent republican administration, with their experience under that of the other party and its pernicious management of public affairs, since blind voters, misled by false and fraudulent promises, deserted republicanism, we cannot but conclude that the great majority party is the party of the poor, of the rich, of prosperity, of progress and of liberty.

Considering the benefits to be derived from such noble principles, the only union to be desired and that we advise our republican friends who, from personal motives, have deserted the ranks of the party, and also our political enemies who desire the promotion of their own prosperity and the good of the people in general, is the union to that party as the only resource that is left us in our critical situation, in order to re-establish the prosperity and true progress of our people and territory; therefore, it results that we adhere to the principles announced in the platform adopted by the republican party at Minneapolis, June 10, 1892, as the most salutary and advantageous for a people and a country.

At this juncture, about 4 o'clock yesterday afternoon, Don Lorenzo Lopez and his followers are said to have left the hall in utter disgust at the adoption of the majority report. They held a meeting at K. of L. hall last evening, at which numerous speeches were made and the minority report unanimously approved, it also then being the sense of the meeting that a straight republican ticket be nominated in San Miguel county.

In the meantime, the union meeting remained in session at the court house, not breaking up till 4 o'clock this morning. In all about fifty speeches were made.

Following are the names of those selected for the central committee of the union party: Nicolas Cordova, chairman; M. F. Jimenez, Tranquilino Labadie, Benito Baca, Juan Macas, Antonio Lucero y Giron, Manuel Baca y Ortiz, T. J. Breen and Carlos Galsbold.

THE LOPEZ FOLLOWING.

The Lopez following met together again in K. of L. hall, at 10 o'clock, this morning, Jose Ma. Macias presiding, and C. F. Rudolph acting as secretary. The vice presidents were Juan Gallegos and Jose S. Hagubel. The gist of the addresses was that they had not been treated honorably in the so called union convention, and could not abide by the decision of a body that violated, brazenly, the rules adopted for the government of the same. The object of those in the meeting was to get the free voice of the masses, untrammelled by any man or set of men.

After some considerable discussion, the meeting adjourned till 2 o'clock this afternoon, when some decisive action will probably be taken.

Old Time Game Ball Club.

Walter Benjamin, of Las Vegas, writes to THE CITIZEN that he is arranging a base ball club to be made up entirely of players who played base ball in the territory ten years or more ago. He desires to pick his players from the towns of Las Vegas, Santa Fe, Albuquerque and Socorro. From this city he will pick W. Y. Walton, T. J. Shisick and the sporting editor of THE CITIZEN, from Socorro he will name Port Beckham, from Santa Fe

Page B. Otero, and Chas. Leicham, Richard Hesser and himself will represent Las Vegas. It is the wish of Mr. Benjamin that the game be played in this city in the next few weeks, and that his old-time team cross bats with Capt. Woodman's Browns. He also names Ektor Buell, of Cerrillos, as the umpire.

The Bicycle Races.

The bicycle races given at the Territorial Fair this fall are very complete and the prizes are worth working for, and show a spirit of good will by the association. The following are the list of events and the prizes:

One mile championship—First prize of the challenge cup and gold medal; second and third prizes will be given.

Quarter mile dash—First, gold medal; second, bicycle shoes.

Five mile race—First, one Victor bicycle; second, one Swiss combination gold case stop watch.

One mile race—For Albuquerque riders not training.

Half mile race—First, gold medal; second, sweater.

Two mile handicap—Winner, one Phoenix Light Roadster bicycle; time, gold medal.

Walton W. Trigg, the new jeweler who is opening a store on Second street, has donated to the Fair association as a second prize in the five mile bicycle race during the fair, a Swiss gold case combination stop watch valued at \$50.

Goodnight, Talbott.

Last night, at 9 o'clock, Joseph P. Goodlander, of St. Louis, and Miss Maude V. Talbott, of this city, were united in marriage at the residence of the bride's mother by Rev. Trew, the Episcopal minister. At 10 o'clock, the happy couple, with a few invited friends, partook of an elegant supper, and at 11:30 they took the No. 3 passenger train for a brief bridal trip to the Pacific coast. They will return to this city in October, and after a short stay here go to St. Louis, which city will be their future home.

Mr. Goodlander is the well-known commercial tourist for the Meyer's Drug company, and is one of the jolliest and most accommodating travelers that visits the southwest. Miss Talbott, the bride, is considered one of the handsomest young ladies in New Mexico, and she possesses in a marked degree rare social qualities. She was given away last night by her brother-in-law, J. W. Robins. THE CITIZEN congratulates Mr. and Mrs. Goodlander, and wishes them a happy, prosperous married life.

Base Ball Tournament.

Division Superintendent Basely, who was here yesterday from San Marcial, informed THE CITIZEN that the base ball club of his town are arranging to enter the tournament at the territorial fair. Mr. Basely stated that San Marcial has a first class amateur base ball club, and he believes that they will win the purse money (\$100) to be offered by the association. It is almost certain that clubs from Cerrillos, Santa Fe, Las Vegas, Gallup and Fort Wingate, besides this city and San Marcial, will take part in the tournament.

A Swift Sprinter.

Davis, the spika leader of the Las Vegas hose running team, is undoubtedly the fastest foot racer in the southwest, and he can cover any distance from seventy five yards up to 200 yards. He had as competitors in the 100 yard race Whitehill, of Silver City; Woodmansee, McDonald, Benjamin, Wells and Granger, of this city; Orlich, Woods, Daniels, Ryan and Koblitz, of Las Vegas, and won with ease, crossing the line in ten seconds. Granger was second, and Wells was given third place. He also covered the 200 yard race in 30 seconds.

Report Wrong.

There is a rumor about that the supreme court has rendered a decision, affirming the decision of the lower court in the S. M. Folsom case, but the following item clipped from the New Mexican dispels the rumor:

In the supreme court this morning Chief Justice Smith announced that the Folsom bank case would be disposed of on Tuesday next. If the court should affirm the decision of the trial court Folsom's sentence of five years in the penitentiary will stand.

Three Leading Scientists

Proclaim the Superior Value of

Dr. Price's Baking Powder.

Scientists are devoting closer attention to food products. Recent examinations of baking powders by Prof. Long, Dr. Haines, and Prof. Prescott, were made to determine which powder was the purest, highest in leavening strength, most efficient in service, and most economical in cost. They decide that Dr. Price's Cream Baking Powder excels in all the essentials of an ideal preparation for household use. They write:—

"Chicago, March 28th, 1894.

We have purchased in the open market cans of Dr. Price's Cream Baking Powder and also of the other leading brands of baking powders, and have submitted them to chemical analysis. We find that Dr. Price's Cream Baking Powder is a pure cream of tartar powder, that is has a considerably greater leavening strength than any of the other baking powders we have ever tested.

Prof. JOHN H. LONG, Northwestern University, Chicago.

Dr. WALTER S. HAINES, Rush Medical College, Chicago.

Prof. ALBERT B. PRESCOTT, Univ of Michigan, Ann Arbor."

A Good List.

THE CITIZEN picked up a good list of subscribers at Las Vegas the other day, among them being the following well known gentlemen: Messrs. Quinly & Benjamin, M. J. Crowley, John Shanks, P. J. Martin, J. B. Mackel, Judge S. E. Booth, Mike Slattery, Ralph Oldham, B. F. Caldwell and Clarke & Forsythe. Our Las Vegas friends will be given the news fresh from the wires and at least twelve hours in advance through the columns of THE CITIZEN.

In Jail at Santa Fe.

James S. O'Neil, a former resident of Allerton, is in jail at Santa Fe charged with petty larceny. He is charged with breaking into a saloon at Allerton and stealing a lot of liquors and for purchasing a fine meerschaum pipe from a look in Santa Fe. At one time O'Neil was locked upon as an honest man by a people of Allerton, but it would seem by the nature of the charges that the expensive use of liquor had made of him a petty thief—Cochiti Call.

Shropshires.

L. M. Hailley, owner of the Pine Ridge flock SHROPSHIRE, of Salem, Iowa, is offering this fall 1000 head of Rams of this breed. The car loads will be on exhibition at the Territorial Fair at Albuquerque, Sept. 11th to 14th, inclusive. Sheep men are invited to inspect. Reasonable prices will be made. Correspondence solicited. Information can be obtained through E. D. Black, Albuquerque, or J. A. Stinson, Cerrillos.

Editors Citizen: Please tell Capt. Woodmansee that after the combination of old-time base ball talent gets at his "colts" there will be nothing left of them but "nine grease spots" on the diamond field. After reading THE CITIZEN last evening I started off to train, took a run down to Laleta, got stuck in the mud for three hours and ten minutes, and arrived home at 4 o'clock this morning, feeling finely.

Yours, SHIRICK.

P. S.—Send me two bottles "horse liniment." The doctor thinks I will be out in time to play that game.

Avoiding Pain and Peril.

Defensive measures against the foe are ever adopted by a wise commander. Who can be commander of the situation and strike a decisive blow at the start at that dangerous and relentless enemy, rheumatism, if attacked by it, by resorting in time to Hostetter's Stomach Bitters, which checks permanently the progress of a malady, among the most obstinate, painful and possibly dangerous, against which medical skill and the resources of materia medica are arrayed. No evidence is more convincing and convincing than that which proves that the Bitters neutralizes the rheumatic poison and checks its further development in the system. For malarial and kidney trouble, dyspepsia, want of vitality, nervousness, liver complaint and constipation, Hostetter's Stomach Bitters is the leading remedy.

Not one complaint has ever been made by those using Ayer's Sarsaparilla according to directions. Furthermore, we have yet to learn of a case in which it has failed to afford benefit. So say hundreds of druggists all over the country. Has cured others, will cure you.
